Mojobrand- brand consulting agency, Cannery Pinhais, 2020

“ With more than twenty years of professional practice, **MEDIAUTOPIA** starts from the premise, not of something impossible and unattainable, but rather of the constant search for improvement and overcoming.”

Graham's, 2010

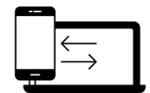

Me Gusta strategic brand design (Fr), "Glen Moray", 2019

Created by photographer and director João Pedro Marnoto, **MEDIAUTOPIA** is a creative platform of VISUAL COMMUNICATION that has developed essentially works in the fields of **PHOTOGRAPHY** and **VIDEO**. For this, it has collaborated with a multidisciplinary and dedicated group of experienced professionals from areas such as **AUDIO**, **COPYWRITING**, **DESIGN**, **PRINTING**, **ILLUSTRATION**, **MOTION GRAPHICS** and **MARKETING**, among others.

Knowing the fundamental role that currently **STORYTELLING** and **BRAND CONTENT** have in the communication of any enterprise, we work on the concept, we create content and we execute it to the final products, from the classic print on paper to the current reality of digital platforms. With more than twenty years of professional practice, we have the privilege of having already worked with entities such as **UNESCO**, **SYMINGTON** or **GLEN MOREY**, and having received distinctions such as **BEST PORTUGUESE DOCUMENTARY** at the Cine'Eco International Environmental Film Festival of Seia, and three **GOLDEN AWARDS** from Graphis Advertising Annual (USA).

**MEDIAUTOPIA** starts from the premise, not of something impossible and unattainable, but rather of the constant search for improvement and overcoming. Therefore, it's the belief, the passion and the dedication with which we work that makes it possible to create works of excellence, in a vision that is intended to be ambitious and distinctive and, in this way, honour the trust that is placed in us.
